ATTACHMENT FOR CLAIM AMENDMENTS

The following is a marked up version of each amended claim in which underlines indicates insertions and brackets indicate deletions.

15. (Amended) A method of processing signals according to claim 13 [or claim 14], wherein said method includes the steps of:

- (a) performing a first measurement relating to the position of a mechanical interaction with said sensor to generate a first measurement value;
- (b) performing a second measurement relating to the position of said mechanical interaction to generate second value; and
- (c) generating said positional data only when said first value is within a predetermined amount of said second value.
